Make your brochure using a standard sheet of paper! Follow along with the video or check out the instructions for making a brochure below!

FOLDED MINI BOOK

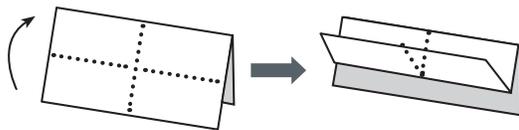

- 1.** Fold your paper in half the long way

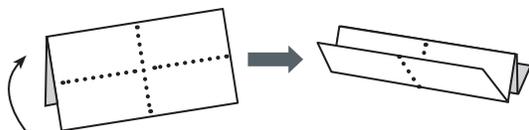

- 2.** Unfold it, and fold in half the short way

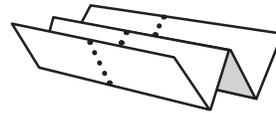

- 3.** Keep it folded, then take one edge and fold it back to the center crease

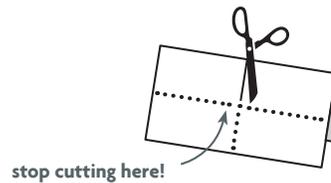

- 4.** Do the same on the other side

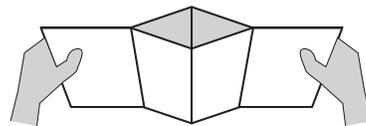

- 5.** Put your folded paper on a table, it should make a “W” when you look at the end

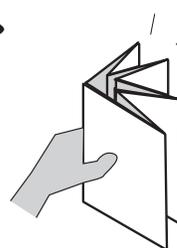

- 6.** Cut at the middle, just down to the fold

- 7.** Hold two edges from the top and pull them down to make an open book with four sections

- 8.** Bring three sections together, and fold the last section on top of them to finish your book

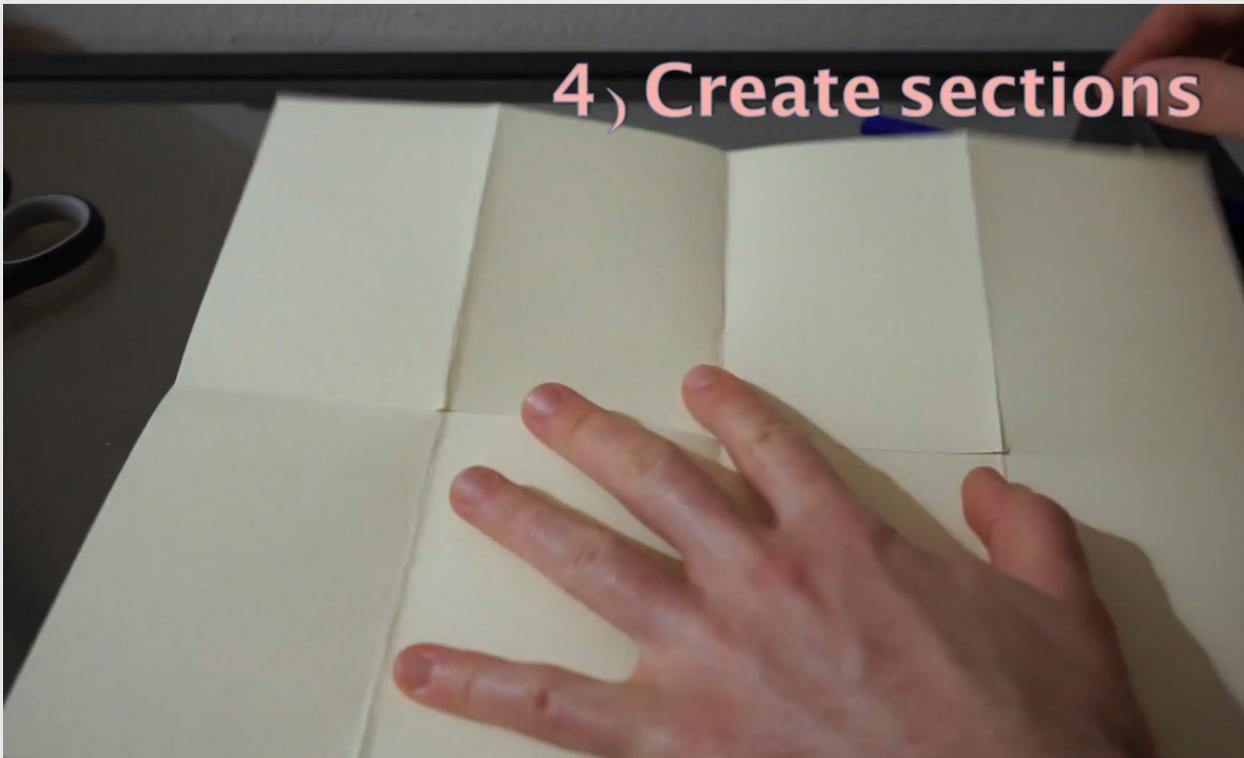

3.

Label the sections of the brochure. Use the sections below or come up with your own!
